### Editor's Message

In your hands you are now holding the 1972-73 Warrior. We, the annual staff, have attempted to capture the events, emotions, and the experiences which has been a part of our world this year at Whynot. As you turn these pages it is our hopes that you will have innumerable recollections of the past year.

I wish to express my appreciation to all who took part in the making of this yearbook. Special thanks to Mrs. Mackey for her advice and instruction; and to my staff members for their dependability, efforts, endurance, and time. Without the assistance of these and the cooperation of the students and faculty of Whynot the 1972-73 Warrior would not have been possible.

If you can recall fond memories of your years at Whynot as you turn through the pages of your 1973 Warrior, then we, the staff, will feel we have achieved our purpose.

Dear Students and Friends:

The primary purpose of any school is to help the student in their preparation for the future. There are other lessons to be learned such as, honesty, truthfulness, obedience, and sportsmanship.

Our main concern here at Whynot Academy is to have a well-rounded school program which is based on a spirit of cooperation between the school board, the administration, the faculty, the parents, and the students. All of us here want to help the students in all areas of their life to be a better person both academically and spiritually.

It is our main hope that our students can in the future contribute to a better world.

Your Headmaster,
